

# SW quality shift report

Stefano Lacaprara

`stefano.lacaprara@pd.infn.it`

INFN Padova

developers meeting,  
SpeakApp, 14 Nov 2018

- Intel not working for BuildBot
  - ▶ expected: current intel compiler cannot handle gcc8 with c++17. We're waiting for a new version.
- seg fault in different validation scripts
- caused increase of red plot during the week
  - ▶ test0\_BBgeneric\_Phase2\_GENSIMRECtoDST.py
  - ▶ test0\_BBgeneric\_Phase3\_GENSIMRECtoDST.py
  - ▶ test0\_GenericB\_GENSIMRECtoDST.py
  - ▶ BabayagaNLOBhabhaSimRec.py
  - ▶ EvtGenSimRec.py
- Issue solved today
  - ▶ Thomas did a b2code-clean. It seems there were some remnants for which the dependencies were not correctly determined.

## Validation Plot overview

- analysis 2/8 → 2/8
- arich 0/0 → 0/1
  - ▶  $\Delta\mathcal{L}_{K/\pi}$ : probably fine
- ecl 0/4 → 0/3
- recostruction 0/14 → 0/14
- simulation 0/2 → 0/2
- svd 0/9 → 0/9
- tracking 0/121 → 0/121

- started from epic **BII-2986** [[Moving analysis documentation to Sphinx](#)]
- **BII-2978 Continuum suppression** (PR to Ilya, Umberto)
- **BII-3600 Flavor Tagger** (PR to Ilya, Fernando)
- **BII-3602 Vertex Fitter** (PR to Ilya, Luigi, Francesco)
  - ▶ Documentation on algorithms is rather poor
- **BII-3641 PID variable documentation** (PR to Ilya, Umberto)
- Pull request sent to relevant people (I hope)
- Still [open]
  - ▶ **BII-3547 MVA package documentation** Jochen
  - ▶ **BII-3761 Fix broken outgoing links** Ilya
  - ▶ **BII-3786 Move ParticleSelector HOWTO over to sphinx and check it's uptodate** (was unassigned, now to Ilya - sorry Ilya)
  - ▶ **BII-4044 Improve sphinx documentation for TauDecayMarkerModule** Michel
- **No (m)DST description in sphinx!**
  - ▶ create **BII-4238 to Ilya** (sorry Ilya)

## mDST size

## mem usage

- CPP warning EKLM: 90 → 0
- CPP warning TRG 491 → 323
- (m)DST size stable ( $\Delta_{mDST} < 100kb$ )
- Virtual memory usage 3.14Gb (10/10) → 2.65Gb (15/11)
  - ▶ due to valgrind workaround?
- resident stable 1.48Gb
